Old Business:

Matt Putman shared 1. that the Scouts had a great turn out with 34 in attendance. Considering the size of the crowd, there were no problems. 2. The repairs of the old building are not cost effective and alternative storage should be considered. Jerry Wittman estimated that just to pour a concrete floor would cost \$4,200. 3. Matt suggested purchasing a locking cabinet and power tools to have on hand for repairs and maintenance projects. Members should not have to supply their own tools. 4. Consider purchasing a prebuilt Amish building. 5. Have a work day to organize the current space to better determine our needs.
